September 14, 2022

7377 General Incident Process Flow

855-265-7377 Incident Questions

Instructions:

General Incidents

Take as much information as possible

Contact appropriate regional On-Call Team Member
Forward incident questions and answers file to designated email recipients on corresponding tabs

Transportation Incidents

(involving tractor/trailer/18-wheeler equipment and answers YES to blue question)

Take as much information as possible
Contact appropriate transportation specific On-Call Team Member
Forward incident questions and answers file to designated email recipients on corresponding tabs

If workplace violence:

Contact or leave message with Director of Security:

- Craig Gardella (346) 237-0567

Forward incident questions and answers file to designated email recipients on corresponding tabs

High Profile Incidents

(if caller answers YES to a yellow question)

Take as much information as possible
Contact appropriate regional On-Call Team Member
Contact or leave message for designated Regional Safety Director

What's your name?

What's your phone number?

Are you a Crestwood employee or contractor? (If contractor, ask/answer the next question)

- What is the contractor name?

What is the location of incident? City & State (If city unknown, what is the nearest town?)

====>> If in North Dakota, Are you associated with Arrow assets, Colt Hub assets, or Roughrider/WildBasin assets? If caller does not know, send notification to both distribution lists.

Did this incident occur on a Crestwood Pipeline?

Did the incident occur at Crestwood site or Crestwood Construction Project? Yes or No

If yes, ask/answer to specify which: Crestwood site or Crestwood Construction Project

If no, ask/answer the following:

What region or site is the incident associated?

What DATE & TIME did the incident occur?

Briefly describe what happened:

Based on caller's description, ChemTel operator will pick the "best fit" appropriate category below (**List of 1-14**) and ask the caller if that selection is correct.

When caller responds in the affirmative, that is the Incident Category.

Keep progressing to "best fit" classification until caller affirms selection.

- 1** Workplace Violence
- 2** Third-Party Complaint
- 3** Vehicle Accident
- 4** Spill or Release
- 5** Injury
- 6** Illness or Chemical Exposure
- 7** Fire

- 8** Line Strike
- 9** Hazard Report
- 10** Property Damage
- 11** Theft
- 12** Regulatory Visit
- 13** Drill or Safety System Test
- 14** Security Threat/Suspicious Activity

Does this call involve any person(s) or equipment employed in the Crestwood (18-wheeler) Transportation Dept.?

Are you a transportation dispatcher or transportation employee reporting a tractor trailer incident?

Is the transportation tractor driver contract (for hire Owner/Operator) or Crestwood employee?

If answers are NO, skip to yellow

If any answers are YES, a commercial tractor and/or trailer is involved and incident affects **Transportation Group**

High Profile Questions:

Was 9-1-1 called?

Is an ambulance needed?

Are emergency responders on-scene?

Is news media on-scene?

Workplace Violence Only:

Was there an immediate threat to individual safety?

Is there a report of a weapon?

What type of weapon was reported?

If a SPILL OR RELEASE has occurred, continue below:

1. Was this a spill or release to air/atmosphere? (spill / release / both)
2. What material was spilled or released?
3. If the incident includes a spill, ask 3.1- 3.3
 - a) Are there any suspected impacts to waterbodies? (N/A, Yes / No / Unknown)
 - b) Is the spill contained on-site? (N/A, Yes, No, Unknown)
 - c) Is the spill contained within secondary containment? (N/A, Yes, No, Unknown)
 - i) If not, what control devices are being used? (control devices - booms, absorbents, temporary berm, or N/A)
4. Provide further detail of the spill or release and the impacted area.

NOTE:

Attach this completed questionnaire in PDF to the notification email sent by ChemTel following incident call-intake

Who will file and complete the incident report?

On-Call Team Member notified by ChemTel:

- Name:

On-Call Team Member Rotation Schedule

Begin at
9am CDT on
below date

When making a notification to an On-Call Team Member listed below, please make a second attempt at contact if there is no answer or call back within 3 minutes. After two failed attempts at contacting the On-Call Team Member for an area, begin calling down the list until someone is notified.

* OCTM Schedule Deviation

— = Rotation
Change/Update

Transportation - All Motor Carrier (MC) and S&L (LPG Storage Terminals) non-MC Incidents

PSG
non-MC Incidents
(includes Oasis-Permian
Delaware Basin, TX)

Arrow/Colt non-MC Incidents

Wild Basin (Oasis-Watford City & Williston, ND)

7473 Pipeline Emergency Notification Flowchart

Process

Aboveground signs and markers identify the approximate location of underground pipelines. The Crestwood Pipeline Hotline number will call the Chemtel operating center. The Chemtel Operator will use the call-tree in place to notify the correct county and regional contacts.

Other reports to this hotline # include: testing the hotline via a drill, Third Party Complaint/Concerns.

Pipeline Emergency Hotline - (855) 265-7473

7377 Email Contents Template

Email template with attached script information. NO names except to indicate who will file the Incident Report. NO volume estimates.

Subject:	Hotline Notification YYYYMMDD: {facility name} , [if NO facility THEN {name county} County], {state} {nature of incident (category) from questions}
Body:	<p>Incident Category: {nature of incident (category) from questions}</p> <p>The HSER Emergency hotline was notified at {time of call} {am / pm}{time zone} that at approximately {time of incident} {am / pm}{time zone} on {date of incident}, {this happened or occurred} at {facility name, specific location or intersection} near {name municipality}, {name county, state}. {Applicable addition - Injury}. {Applicable addition - Release}. {Applicable addition - Drill or Safety System Test} {Other Important Information}.</p> <p>An incident report will be initiated in the Enviance System and assigned to {Name of Crestwood employee submitting report}.</p> <p>Please access system to review for accuracy and update report with any additional supporting documentation by EOB {next business day, not Sat/Sun}. {Enviance link}</p> <p>To report errors in this notification text, distribution recipients, omissions, or others concerns, please the click link to submit to your internal admin. {hyperlink}</p>

NOTE:

This email notification to recipients must be sent out within 5-10 minutes of call-intake so Crestwood personnel can effectively provide support to on-scene individuals following an incident. If experiencing technical difficulties, proceed with additional protocol after 15 minutes.

Selection	Nature of Incident (Category)	Fire, Explosion, Line Strike, Injury, Illness, Exposure, Vehicle Accident, Spill or Release, Theft, Security Threat, Theft, Agency Visit, Property Damage, Potential Hazard, Complaint, Drill or Safety System Test			
Example	Time of incident	hh:mm	am	pm	
Selection	Time Zone	PDT	MDT	CDT	EDT
Example	Date of Incident	MM / DD / YYYY			

Examples	This happened or occurred	<p>a contractor damaged a buried pipeline</p> <p>an employee was involved in a motor vehicle accident</p> <p>that equipment was missing and believed stolen</p> <p>an employee was injured</p>
----------	---------------------------	--

a contractor transportation driver was involved in an accident
the TCEQ was noticed filming FLIR images at Alliance Compressor Station.
stop work authority was used because of a potential hazard
amine and produced water was released to containment and then to surrounding soil
an equipment fire was extinguished by [an employee] [a contractor]
an employee was [exposed to] [burned by] a chemical
a [agency name or abbreviation] arrived to perform an inspection
an emergency shutdown was activated
property damage [occurred] [was discovered]
an equipment leak was [discovered] [stopped]
a contractor was injured
a complaint was received
a Drill or Safety System Test occurred

Examples	Specific	Most facilities have a proper name, even pipeline rights-of-way, like Alliance, Morgan, North Coles Levee...etc.
	Location or Intersection	The proper name is almost always followed by an additional identifier such as: compressor station, (&) treating facility, gas plant, fractionator, etc. a pig launcher / receiver, on a lease road, the warehouse, tank farm, the central delivery point...etc. the intersection of Main Street and Highway 123, near exit 321 on Interstate 20,
Examples	Injury Additions **No Names**	There were / was {no, 1, 2,...} injuries reported. A/The {employee, contractor, 3rd party} is being transported for evaluation at a medical facility. First Aid was administered to the {employee, contractor, 3rd party} at the scene.
Examples	Release **No volumes**	There was no reported release. Product was released to the ground inside the facility. The release has been stopped. Produced water was released inside secondary containment. {Specific product} was vented to the atmosphere. Local Operations will work to estimate the volume of release.
Examples	Drill or Safety System Test	The scenario included: {Details of Nature of Incident (Categories)}

****For vehicle accidents, it is important to make the following distinction****
Commercial Tractor and/or Trailer operated by Transportation Drivers vs. Passenger Vehicles (cars/pickups) operated by field employees

Examples	Other Important Information	HSER {and / or Operations} employees are on-scene {or en route} to respond. Site remediation is reportedly underway. The involved employee will complete a post-accident D/A screening. Additional on-scene support has been requested.
----------	-----------------------------	--

Incident Notification Distribution

Overview

Notification Level	Target Audience	Notifications	Responsibility
Primary*	Incident First Responders – those directly involved in the response of the incident	Local Ops Leadership (reference Appendix A) Includes: Corp Health and Safety + Ops Safety Leadership and Advisor (region-specific)	Chemtel
Secondary	Support groups - those indirectly involved in the incident response	+ Incident Classification and Asset Type (reference Appendix B)	Chemtel
Tertiary	Those who are not involved in the response, directly or indirectly; for information only	Individual or Department basis	Local Ops Leadership; Notification Workflow

***For Primary Notifications, ChemTel only needs to select the Local Ops Leadership distribution list. All other primary notifications distribution lists are combined down to the Local Operations level. Corp Health & Safety and Region-Specific Operation Safety (Divisions) are members of the local distribution lists and do not need to be selected separately.**

Initial incident notification sent from **ChemTel®** in email format
— a velocityEHS solution —

Transportation Panic Alert Procedures

1. Once unit's Panic Alert is activated, the device will automatically generate an email to ers@ehs.com, monitored by ChemTel personnel.
2. When ChemTel operators receive an email, follow the 7377 General Incident Notification process for Transportation and call/notify the OCTM for **Transportation/S&L LPG Terminals Group**.
3. ChemTel **forwards** original email received to the **Transportation Distribution List (East or Central Region)**
 - Add language & subject line (standard format)

Email Example

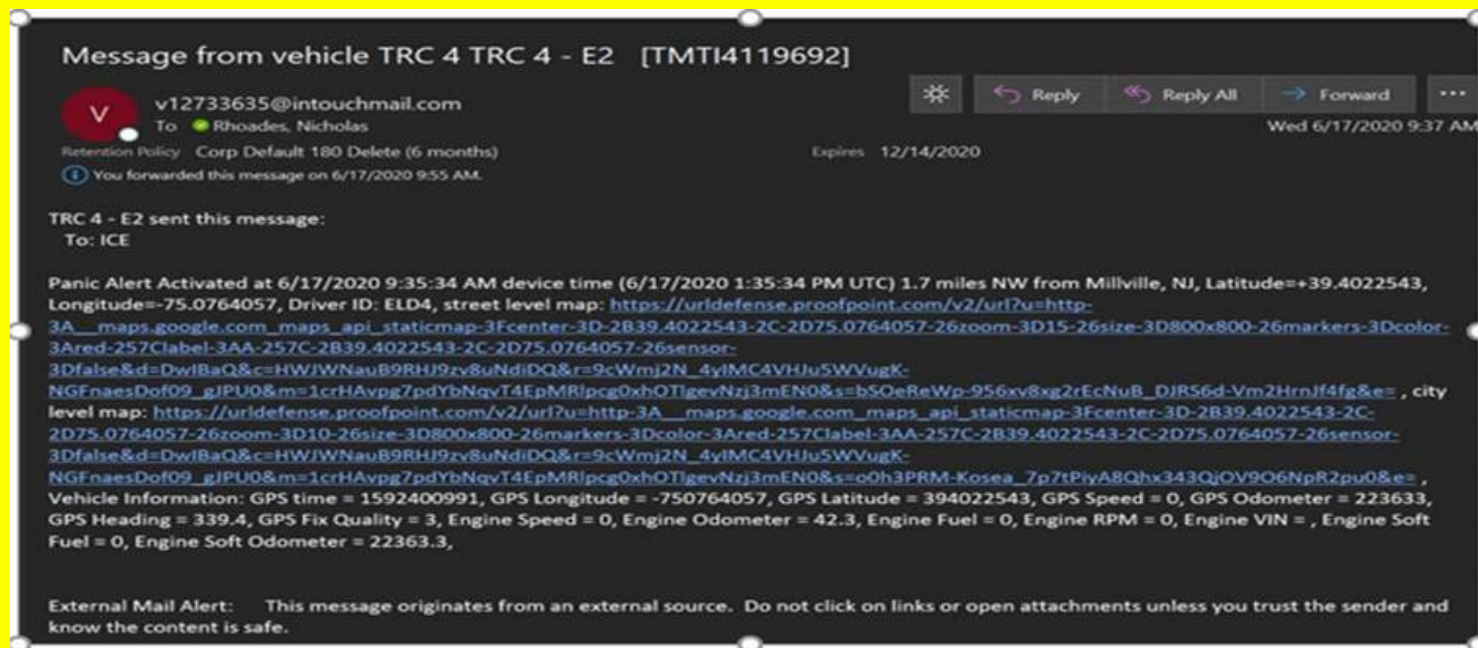

Subject Line:

Hotline Notification YYYYMMDD: State, Transportation Panic Alert

[Insert additional language....]

The Crestwood Emergency hotline was notified of a Transportation Driver's Panic Alert Activation. The OCTM was verbally notified at approximately {time of incident OCTM was notified} {am / pm}{time zone}.

See driver location information below.

4. At this time, we do not have "Man-Down/Panic Alert" set up as an Incident Category; therefore, "Events" will not get logged into Enviance. Similar to Pipeline events, we would only need a spreadsheet export or original emails upon request.
